

7.3 National Info Day in Kosovo

Brief Report

Date: 29/06/2021

Partner: Universum College

Country: Kosovo

Deliverable: 7.3 National Info Day in Kosovo

Universum College as planned has organized a Drive project Info day where around 50 participants have taken place in the info day. Info day has initially started with the introduction of DRIVE project and explanation of main idea, objectives and outcomes.

Upon the completion of presentation, participants have taken a coffee and snacks break due to high temperatures and heat wave domination in Kosovo. Vary of conditions and proliferation of Delta version of Covid-19 in Kosovo, Universum College has applied some restrictions in participations therefore participants working in crowded institutions and exposed to public were asked to attend the info day through online connection link provided to them.

The second part of the Info day has started with the presentation of the deliverables created by partners, outcomes as well as guidelines. Research guidelines and suggestions created were shared with all the participants. Later on they were asked to provide feedback and suggestions regarding the recommendations in institutional level. The research center to be established at Universum College was reviewed carefully and draft proposal was presented. Upon the completion of the part two of presentation participants went for another cooling off and coffee break in order to become energized and regain the concentration.

The third part of the presentation continued with future activities reports as well as planning of sustainability after the project financing ends.

Participants were presented the deliverables to be completed, the expected timeline and their involvement and expected contribution to the project implementation. Business industry participants have expressed their willingness in cooperating with Universum College and other partners in the consortium.

All the presentation material as well as prepared guidelines report and information has been shared with participants and other interested stakeholders.
