

## WP 4. Develop Institutional Capacities for Research

### Del 4.5 Equipment Purchase for RISS

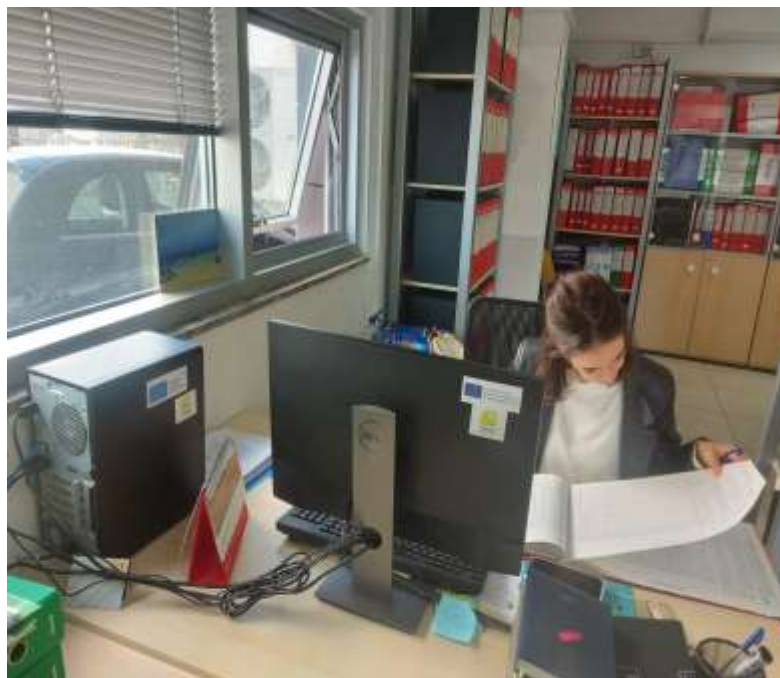

In the framework of the project, partner HEIs from Albania and Kosovo, purchased the equipment, in line with the objectives of the projects, which mainly are used in the new established/ developed RISS. Equipment's as well as online libraries (Jstore) as well as plagiarism software (Turnitin) will serve to improve capacities for research and innovation in the Institutions in Albania and Kosovo.

The tendering procedure for the purchase of Equipment was conducted by beneficiaries of the Project. While in Albania the tendering procedure was national and conducted by the Coordinator of the Project "POLIS University", in Kosovo the tender procedure was realized independently from each Institution. The equipment's are fully operational and in use since the second year of the project implementation, inventoried in the University assets.
